

THE DIAMOND CONTEST

Miss Whitfield Gains Nearly Thirty-One Thousand Votes, Putting Her in the Lead in the Ocala District—Mrs. Veal and Miss Lytle Continue to Lead in Their Districts

Another three days nearer the end of the big diamond ding contest shows increasing interest and large votes are being cast, showing that the candidates and their friends are getting busy.

The largest single vote cast this week was that of Miss Whitfield, which was nearly thirty-one thousand, and she now leads in the Ocala list.

The attention of the firms interested has been called to the fact that under the rules of the contest there are three names appearing in the Ocala list which should properly be in the southern district, and they have accordingly been transferred. They are Misses Aurelia and Maud McAtter and Miss Winnie Tucker. While their postoffice address is Ocala, they do not reside within the city limits, consequently from this time they will appear in the southern district.

The three pretty diamond rings which are to be contested for are now on display in the window of Burnett's jewelry store, near the postoffice.

In order to give all an opportunity of entering with equal chances the county has been divided into three sections, as follows: Ocala section includes only the city limits; Northern section includes all of Marion county north of the A. C. L. railway between Ocala and Dunnellon, north of the Seaboard railway Ocala to Silver Springs, north and west of Silver Springs run and the Oklawaha river; Southern section all the county south of this line, except Ocala.

Here is an opportunity to secure a valuable prize absolutely free for three ladies of your acquaintance. There are no strings to the offer.

Each issue of the Daily Banner will contain a coupon good for five votes in the contest, while the Weekly Banner will contain a 10-vote coupon.

Coupons will be issued with every cash purchase made from these firms on a basis of one vote for every cent traded with them.

The firms who have entered the lists to date are:

HELVENSTON & PASTEUR, Dry Goods.

OCALA FURNITURE CO., Furniture.

KNIGHT & LANG, Buggies, Wagons, Harness, etc.

YONGE & SON, Plumbers and Tinners. Agents for Maxwell autos.

MISS MARY AFFLECK, Millinery. A. E. BURNETT, Jewellery.

W. P. EDWARDS, Meats and Produce.

OCALA NEWS CO., Stationery and Newspapers.

THE OCALA BANNER, Printers and Publishers.

SILVER TIPPED LIVERY, C. E. Johnston, Manager.

O. K. GROCERY, Staple and Fancy Groceries.

The above firms are now issuing coupons, so be sure to ask for them when making your purchases.

See the Ocala Banner's club offer in another column of today's paper. Here's an opportunity to secure a big vote for your favorite without much effort. Two of the young ladies in the contest are already at work on clubs, and one has secured a handsome vote for a club of ten.

Note the advertisement of the firms issuing coupons, and don't fail to get them whenever you make your purchases.

Though we have discontinued running the nominating blank in the paper, nominations are still in order, and anyone wishing to place a name on the list may do so by simply depositing the votes in the ballot boxes or mailing same to this office, care "Contest Department," Ocala Banner, Ocala, Fla.

THE KELLEY-DAVIDSON MURDER TRIAL

Speaking of the above murder trial the Gainesville Sun ends an editorial comment as follows:

Judging from the statement of Kelley just before sentence was passed upon him Saturday evening, it is evident that the jury made no mistake in their verdict, so far as he is concerned—except that they recommended him to the mercy of the court. Evidently he fired the fatal shot, else how could he know, as he says, that Davidson is innocent of any connection with the crime, and if he (Kelley) is alone responsible for this cold-blooded murder he owes it to Davidson and the public to make a clean breast of the whole affair.

This is the second time Kelley has been sentenced to life imprisonment for taking human life, having been granted a pardon for the first crime after serving only a few years of his sentence. Evidently the man has a mania for taking human life, for we cannot conceive of the motive which prompted him to so cruelly murder Sellars, whom he had never met personally, and who had never harmed him.

We repeat that it is strange that the jury recommended this man to mercy after being convinced that he committed this foul, cold-blooded murder.

LIFE 100,000 YEARS AGO

Scientists have found in a cave in Switzerland bones of men who lived 100,000 years ago, when life was in constant danger from wild beasts. Today the danger, as shown by Mr. A. W. Brown of Alexander, Me., is largely from deadly disease. "If it had not been for Dr. King's New Discovery, which cured me, I could not have lived," he writes, "suffering as I did from a severe lung trouble and a stubborn cough." To cure sore lungs, colds, obstinate coughs and prevent pneumonia, it's the best medicine on earth. 50c. and \$1. Guaranteed by Tydings & Co. Trial bottle free.

CARNEGIE LIBRARIES IN FLORIDA

Jacksonville, Ocala, Pensacola and Tampa each have a Carnegie library.—Jacksonville Metropolis. Ocala has not yet secured her Carnegie library, but a movement is now on foot that will ultimately result in securing a handsome library for our city, and it is hoped that work will be commenced on it within the next few months.

NEW K. OF P. OFFICERS

The newly elected officers of the Knights of Pythias are as follows: Sidney Hail, chancellor commander; J. G. Spurlin, vice chancellor; J. G. Ferguson, prelate; C. K. Sage, keeper of records and seal; H. M. Hampton, master of arms; R. E. Yonge, master of work; Jake Brown, inside guard; E. T. Porter, outside guard.

THE ODD FELLOWS ELECT OFFICERS

Tulula Lodge of Odd Fellows held its semi-annual election Tuesday night and elected the following officers: W. L. Colbert, noble grand; R. A. Detterich, vice grand; M. M. Little, secretary; J. H. Benjamin, treasurer. These officers will be installed at the next meeting, Tuesday evening, July 6.

W. O. W. PICNIC

Fairfield Camp, No. 188, W. O. W., will give a picnic at Fairfield July 15. All are invited to come and bring well filled baskets. Refreshments served on the grounds.

W. R. SIMPSON, Clerk.

A NIGHT RIDER'S RAID

The worst night riders are calomel, croton oil or aloes pills. They rob you of your bed to rob you of rest. Not so with Dr. King's New Life Pills. They never distress or inconvenience, but always cleanse the system, curing colds, headache, constipation, malaria, etc. at Tydings & Co.

Mrs. C. H. Smith, wife of the late "Bill Arp," Georgia's famous humorist, is dead at her home at Cartersville, Ga.

ADDITIONAL LOCAL

See the Stetson announcement on page ten of today's paper.

Miss Mildred Sumner has returned home from a short visit with Jacksonville friends.

Mr. Clifford Landers has gone to Havana, Fla., to visit his brother, Mr. Otis Landers.

Mr. Henry Sistrunk has returned home from a pleasant visit with friends at Mimal.

Mrs. J. G. Ferguson and son, Ray, have gone to Daytona Beach, where they expect to spend several weeks.

Miss L. M. Walkup of McIntosh, one of that city's best known young ladies, was among the visitors to Ocala on Wednesday.

Stetson University at DeLand is for all denominations. See advertisement in today's paper.

Miss Myra Birdsey of Macon arrived in the city last Saturday, and is the attractive guest of Miss Catherine Hawkins at her lovely home in Riverside.—Times-Union.

We regret to hear that Mr. H. M. Hampton has lost his case of the city against the county in the supreme court. If his work was "love's labor lost," he is at least to be commended for his strenuous efforts.

Mrs. Arthur Clark, instead of returning to her home in Jacksonville, has joined Mr. Clark at Tampa, and together they will enjoy the lovely Manatee river trip. Mrs. Lee Miller will remain in Ocala with her mother until next week.

R. S. Hall of Ocala is in the city today, looking after business interests here. Mr. Hall reports that prosperity prevails in Ocala and the surrounding country. "It is the best inland town in Florida," he declared.—Tampa Times.

The young people, who are having such a delightful time this week at Lady Lake as the guests of Miss Jean Teague are Misses Margaret Anderson, Tillie and Caroline Pasteur, and Messrs. Witherspoon and Dick Dodge and Edward Green. With fishing, bathing, boating, etc., the week will be a most enjoyable one.

Mr. Edwin Spencer of Ocala is in the city in the interest of Stetson University. Mr. Spencer is a bright young man and is making many friends for the school. Yesterday he was the guest of his college mate, Mr. Ernest Quarterman.—Miami Metropolis.

Mr. John Z. Reardon, oldest son of the late Hon. John G. Reardon of this city, is now residing in Atlanta. He is now chief clerk for the Dixie Coupon Company of Atlanta, and says he has been with them for the past year. Mr. Reardon says that while he lives in Atlanta he still claims Ocala as his home and will always have a very warm spot in his heart for Ocala and Ocala people.

Rev. and Mrs. R. H. Barnett, Miss Louie Barnett and Miss Louise Nixon left yesterday for North Carolina. Mr. and Mrs. Barnett will stop at Black Mountain Inn to be with their two youngest sons, who are attending the Y. M. C. A. Bible Conference. Miss Nixon and Miss Barnett will join them after attending the Young People's Missionary Conference at Montreat, where Miss Barnett has been chosen as pianist for the conference.

Mrs. J. Walker Bishop and children have moved into their new home on Oklawaha avenue, which is now partly completed. Mrs. Bishop has stored her furniture in the finished rooms and she and the children will spend the next few weeks at Crystal River with her father, Col. Nic Barco, and family. Mrs. Odom and family have moved from South Fourth street into the house just vacated by Mrs. Bishop and children.

Mr. E. C. Staley has gone to Tampa where today he assumes charge of his duties as soliciting freight agent for the Seaboard Air Line in that city. Mr. Staley has been with the Seaboard in this city for several years, and while his friends here are glad of his promotion they are sorry that it takes him away from Ocala. Mrs. Staley, who was Miss Grace Moore, of this city, and little daughter, accompany Mr. Staley to Tampa.

R. R. Briggs, who has for three years been assistant to Y. R. Beasley, who was recently promoted from the position of city passenger and ticket agent to that of traveling passenger agent of the Coast Line, has resigned. Mr. Briggs, who is one of the brightest young railroad men in Florida, will go to Jacksonville to accept an important position in the ticket office at the union station.—Tampa Times. The Ocala friends of Mr. Briggs will leap with pleasure of his promotion.

THAT UP-BUILDING SCHEME FOR OCALA

In noting the arrival of the first "Sunny Jim" special from Ocala to Tampa the Tampa Tribune exultingly proclaimed that the new schedule "will give the people of Ocala and way stations the opportunity of doing their shopping in Tampa," and the Tampa Times, reiterating the same thing, said that "hundreds of people who have for a long time been desirous of shopping in Tampa and returning to their homes the same day will now have an excellent opportunity of doing so." And for giving the people of Ocala and intermediate points the glorious opportunity of doing their shopping in Tampa the Tampa newspapers have the gall to suggest that a monument ought to be erected to the memory of "Sunny Jim" on the public square of Ocala and that the Ocala merchants ought to be the prime factors in the movement. We shall look for a proposition of this sort at the next meeting of the Ocala board of trade! Yum! Yum!

PIGMY WATERMELONS

A Washington dispatch says: Individual watermelons, about the size of a cantaloupe, of delicious flavor, in color yellow and red, which can be grown in any section of this country, have been introduced through the department of agriculture by Horace G. Knowles, former American minister to Roumania, who discovered them in the foothills of the Carpathian mountains in Roumania.

For use in hotels, restaurants, clubs or dining cars and elsewhere, the new arrival will fill a long felt want. Extensive experiments have been made by the department through its numerous stations, which prove that climatic conditions, soil, etc., in practically all parts of this country are adapted to the growth of the melon.

This season a large quantity are being raised by the government for the purpose of seed propagation and for the introduction to the public.

It is proposed to name the new melon Princess Marie, in honor of the crown princess of Roumania, whose guest Mr. Knowles was when he discovered the melons.

STILL HAMMERING THE LEGISLATURE

The late legislature is still furnishing material for the hammerers. Some of the blows delivered are real naughty. For example, this one from the Bartow Courier Informant: "About the time our late lamented legislature adjourned, the Quincy Times suggested that none but editors be sent to the next legislature, remarking that the business than the poor devils who were there last session. The editor who would confess that he couldn't do better than our last batch of solons ought to go out and hang himself. A legislature composed of newspaper men could be counted on for at least two things—it would pass no freak bills and waste no time considering them and it would enact no laws that would militate against the progress and prosperity of the state."—Tampa Tribune.

THE SOUTH'S PROGRESS

Here are some items, cited by a trade journal, of the progress of the south in recent years: Since 1867 the south has mined 31,000,000 tons of phosphate rock. In the past century the south has mined 1,675,000,000 tons of coal. Since 1869 the south has produced 365,000,000 barrels of petroleum. Since 1880 the south has cut 270,000,000,000 feet of lumber. In the past ten years the south has raised 112,500,000 bales of cotton. Today's aggregate production in southern manufacturing, agriculture and mining is more than \$5,000,000,000, and some of the results are noted in the increase between 1880 and 1909 in the true value of property from \$525,000,000 to \$21,000,000,000 or more. At the present rate of increase the south's wealth should, within the next 5 years, approach \$80,000,000,000.

THE FLY THE ANGEL OF DEATH

In New York there are more than 5000 deaths from typhoid and other intestinal diseases during the fly season. It is estimated that were the fly actually banished it would result in the saving of 5000 lives a year in that city and the prevention of 50,000 cases of sickness. Typhoid fever is estimated by experts to cause an annual economic loss amounting to \$350,000,000 in the United States and fully \$25,000,000 in Canada. It is also figured that the American people spend \$10,000,000 a year for door and window screens. Not only is the fly a disseminator of typhoid, but he likewise communicates tuberculosis by carrying it from the sputum of tubercular patients to others, and carries every form of intestinal disease. It is said that much of the cholera infantum, the most fatal of children's diseases, is carried to the little victims by the flies.—Frederic Haskin.

THE INEQUALITIES OF FREIGHT RATES

When he was running for a place on the railway commission of Georgia Mr. McLendon, who was deposed as a member of that body by Governor Smith, wrote and spoke against the inequalities of the freight rates against which the interior cities of Georgia have to do battle. Among other things he called attention to the following striking example:

Yonder stands a forty-car freight train at Memphis bound for Savannah, loaded with cotton, 50 bales to the car, which has crossed the river. This cotton will take the proportional rate to Savannah and the freight will be \$2250. Just behind it stands another train exactly like the first, loaded for Savannah, and this cotton will take the Memphis rate proper. The freight will be \$3500. These two trains are started on their way to the port and at Atlanta another train exactly like them joins the procession, and it will earn from Atlanta to Savannah, \$4300. At Macon a fourth train falls in line and it will earn \$3400, and at Sandersville train No. 5 brings up the rear, and on a run 139 miles from Savannah will earn \$3650. That is the port rate for the farmers of Washington county, and yet they have been told that no one in Georgia was interested in or cared anything about port rates except Atlanta. Get these figures fixed up in your mind. You pay \$3650 for a train from Sandersville to Savannah, or \$91.25 per car, 36 1-2 cents per 100 pounds, or 5.2 cents per ton per mile.

Mr. McLendon, taken at his word, was placed on the Georgia railway commission and when the interior points sought relief through the commission, as strange as it may appear, he proclaimed that no one wanted the port rates but a few manufacturers of Atlanta.

Mr. McLendon, before his election as a member of the board of railway commissioners, claimed that Georgia had the inherent right to protect herself against these gross and unjust inequalities. He said that "the contractual rights of the state over its own creatures, its concurrent power over the instrumentalities of interstate commerce and its reserved rights of appeal and amendment and the inherent right of sovereignty."

The legislature of Florida early fixed the rate the railroads should charge for passenger service per mile and if it has the right to fix passenger rates it seems that it would also have the right to fix freight rates or at least to say that there should be no discriminations in favor of some points and against other points.

But the placing of interior points on an equality with seaport points ought to appeal to the railroads themselves—it ought to occur to them that the building up of interior points would be the very making of the railroads. Every piece of freight would be grist for the railroad hopper.

OCALA-TAMPA TRAIN

Coast Line's New Train Arrived on First Run at Noon Today

The Atlantic Coast Line's first train on the long desired Ocala-Tampa run arrived on time shortly after the noon hour, and brought in a large number of Floridians who will attend to business and shop in Tampa before the train returns this afternoon. The inauguration of this excellent service is greatly appreciated along the entire route traversed, and patronage bids fair to be good throughout the year.

The Coast Line is particularly worthy of praise from the people of Tampa on account of the service, which will prove of great benefit to the city, although it cannot prove financially successful for the road for a considerable time. Hundreds of people who have for a long time been desirous of shopping in Tampa and returning to their homes the same day, will now have an excellent opportunity of doing so.—Tampa Times.

BURGLARS AT WORK

Saturday night a burglar or burglars broke one of the large plate glass windows of Messrs. Keating & Company's establishment and helped themselves to quite a quantity of goods of various kinds. No money was taken.

A colored employee, who was arrested on suspicion, was released by the authorities, as he was able to give an explanation as to his whereabouts on Saturday night.

The Baptist ministerial association of Chicago, after a hissing and howling time in a convention that bore striking resemblance to a Tammany conclave for division of spoils, has finally expelled Rev. George Barnum Foster of the University of Chicago for injecting heresy into one of his recently published books. In the meantime the "Rev." Edward Stanley, P. D. Q., late of Palatka, and whose books are said to have "sprung a leak in transit," is out in the cold, cruel world, driven from home, as it were, but with little means to purchase additions to his library, looking two ways for Sunday and another chance at easy money, while no man gives unto him.—Palatka News.
